# Computer Science BOA 2017

Brief Report from da Beach

Online & Panama City Campus

Enrollment (Headcount)

Faculty

- Chris Lacher
- Steve Leach
- Gang-Ryung Uh
- Melissa Carlton

Benefits of Online Program

- People like Cassy xxxx (interships w Google [Sydney] and Microsoft [Redmond]) who can embark on extended internships while continuing to work on a degree.

- Tallahassee students (or students from other schools) who are going home for the summer, but want to take a couple of courses during that time.

- People like Jonathan xxxx with physical disabilities who have great difficulty attending face-to-face classes.

- People like Marcus xxxx whose age [14] makes "going away" to college an issue.

- Several attorneys who need to acquire an ABET-accredited degree in order to sit for the patent attorney.

- Many, many students going for a second degree while gainfully employed and unable to relocate or attend traditional programs where many of the classes meet during the day.

Top issues for Students:

- Foreign language requirement, particularly for people who graduated from high school 10 or more years ago

- FSU's stringent liberal studies requirements for students who don't have an AA from a Florida State school

- People intending to attend a MS program in CS, but are missing some of the required prerequisites

Top issues for program:

- Faculty growth [numbers and development]

- Greying [Lacher, Leach]
