

COP4342 - 2006 Fall

Assignment 7

Simple L^AT_EXpaper

Objectives: Learn how to write simple a simple paper in L^AT_EX.

Instructions: Your assignment is to write a simple paper in L^AT_EX about the five most interesting techniques that you have learned about L^AT_EX, and use an example of each.

The file should be **Assign7.tex**, and you should use a default point size of 12 for your font. It should be single-spaced, and should be letter-sized (not A4).

Include at least one table, at least one list, and at least one figure. These items should be naturally placed in the paper, and not just forced into an item.

Submission: Mail **Assign7.tex** as an attachment to langley@cs.fsu.edu before the beginning of class on Friday, November 3rd.
