

Women in Computer Science: Mentor Application

Thank you for applying to be a mentor in the Computer Science department! To apply, please complete the attached application and email it to advisor@cs.fsu.edu.

Mentor Requirements and Responsibilities:

To be a mentor, you must:

- Be an undergraduate or graduate, main campus student in the Computer Science department
- Taking or passed COP 4530, Data Structures
- Have a 2.7 or higher GPA
- Be willing to devote the time to being a mentor

Once you complete the application, you will be contacted for an interview. If selected, you will be contacted with your mentee's name, phone number and email, so you may initiate contact. It is expected that you will contact your mentee within the first two weeks of receiving the contact information. We expect mentors to meet with their mentees outside of WiCS events at least once a month, but also maintain open communication with their mentee during other times in the semester. As a mentor, you should be a guide, resource, and support contact for your mentee.

Mentorships last for a semester, with an option to continue the mentorship in following semesters.

The application deadline for Fall 2018 mentorships is August 17.

WiCS Mentor Application

Please complete the application and email it to advisor@cs.fsu.edu:

Basic Information:

Full Name: _____

FSU Email: _____

Phone number: _____

Gender Identity: _____

Please select your degree program:

_____ Undergraduate _____ Graduate

Please select your major program:

_____ Computer Science B.S. _____ Computer Science B.A.
_____ Computer Criminology B.S. _____ Computational Biology
_____ Computer Programming and Applications _____ Computer Science M.S.
_____ Computer Science M.S. Cybersecurity _____ Computer Network & Sys Admin
_____ Computer Criminology M.S.

Please answer the following questions:

How many hours would you be willing to commit to being a mentor?

_____ 30-40 hours per month _____ 20-30 hours per month
_____ 10-20 hours per month _____ Fewer than 10 hours per month

Have you completed COP 4530, Data Structures?

_____ Yes _____ I am currently enrolled _____ No

How many mentees would you like to mentor?

Are you willing to attend group events with your mentee (e.g. a night at the movies with a group of mentors and mentees)?

Why did you decide to become a mentor?

Please describe an experience where you benefited, or would have benefited, from having a mentor:

What are you interested in Computer Science (e.g. Cybersecurity, Artificial Intelligence, etc.)?

What are you interested in outside of Computer Science?

What are some social activities you would be interested in doing with your mentee?

Please note that the application to become a Mentor includes an interview component. You will be notified by an Undergraduate Advisor to schedule your interview after you submit your application.
